

COMPANY PROFILE

Introduction

Spartan International delivers cutting-edge security solutions powered by elite expertise and advanced technology. Our team, drawn from specialised law enforcement units, combines tactical skill with innovation to provide unrivalled protection. Leading the way in AI-driven off-site monitoring, we offer advanced human and vehicle detection systems designed to safeguard your people, property, and assets.

We provide professional armed and unarmed guarding services for residential, commercial, and industrial environments, ensuring continuous vigilance and peace of mind. Our event security and VIP protection solutions deliver discreet, reliable safety for high-profile individuals and large gatherings alike. For clients requiring the secure transfer of valuable goods, our high-value asset transport service combines strategic planning with uncompromising protection.

In times of civil unrest, our tactical response and riot control teams are trained to act swiftly and decisively to restore order. We also offer accredited firearm training through our specialised centre, complemented by tactical medics who provide essential support in high-risk environments.

With strong partnerships across law enforcement and a commitment to excellence, Spartan International doesn't just provide security—we redefine it.

Core Services

1. OFF SITE MONITORING USING AI

Spartan International Security provides advanced remote monitoring services that integrate (AI) powered CCTV cameras, alarm systems, and off-site surveillance, ensuring intelligent, real-time protection 24/7/365. Our (AI) cameras feature vehicle and human detection, enabling rapid threat identification. With expert operators and cutting-edge technology, your property and commercial sites are never left unguarded, offering fast response times and complete peace of mind.

Remote Surveillance

Our off site surveillance solutions use advanced analytics, motion and fire detection, and live alerts to keep your property and business secure around the clock. Reduce risk, improve response times, and stay compliant with monitoring services tailored to your industry. Centralized from our secure command centre, we ensure instant response to potential threats, day or night.

24/7 Live Video Monitoring

Deter crime with live audio warnings, sirens, and rapid response protocols. Enjoy secure, cloud-based video storage for easy playback and seamless evidence sharing. Our eyes are on your home and business 24/7/365.

CCTV Monitoring

A centralized security control room, located offsite, monitors CCTV cameras in real time or reviews recorded footage from multiple sites. This approach is commonly used by businesses, residential complexes, industrial facilities, and critical infrastructure where on site security is limited or impractical.

2.

ARMED & UNARMED GUARDS

Armed Guards

Whether you require armed guards equipped with handguns or rifle trained personnel for high-risk environments, our tactical team maintains professionalism at all times. We are equipped to handle diverse security challenges with vigilance and expertise.

Unarmed Guards

Our unarmed security personnel offer vigilant, professional protection without the use of weapons. They prioritize deterrence through a visible presence, access control, regular patrols, and excellent customer service. This approach is ideal for environments where a less aggressive security presence is preferred, such as retail stores, offices, schools, and events.

Access Control

Our unarmed guards are trained to manage access points with professionalism, vigilance, and courtesy. Whether it's a corporate entrance, residential gate, or industrial facility, we ensure only authorized individuals gain entry keeping your property safe, secure, and under control.

First Line Of Defense

We provide a strong physical presence that deters potential threats, controls access and ensures a swift response to any suspicious activity all while maintaining a calm and professional environment.

3. ARMED TACTICAL UNITS

Spartan International's Armed Tactical Units are highly trained teams specializing in high risk and complex security operations. Equipped with advanced tactical skills and specialized equipment, they are prepared to respond swiftly and decisively to volatile situations requiring expert intervention. Comprising highly skilled personnel, our units are deployed in critical scenarios such as active threat response, VIP protection, and the safeguarding of key infrastructure operating with precision, discipline, and unmatched professionalism.

High-Risk Security Operations

Our team goes beyond standard protection services. These highly trained units are deployed in situations where the threat level is elevated, requiring advanced tactical skills, precision, and rapid response.

Emergency Response Crisis Intervention

Our teams are expertly trained to respond to emergencies and critical incidents with speed, precision, and control. Deployed when conventional security is not enough, these units provide a strategic, force ready solution for high-risk, high impact scenarios emphasizing rapid intervention, containment, and deescalation.

Riot Control

Trained and equipped to manage riot control and civil unrest with precision, authority, and professionalism, these units are deployed when crowd behavior escalates beyond peaceful protest posing a threat to public safety, private and commercial property, or critical infrastructure.

Tactical & Perimeter Defense

Spartan International Armed Tactical Units deliver specialized tactical patrol and perimeter defence services, securing high risk environments, sensitive sites, and mission critical operations. These highly trained units undergo rigorous training with certified instructors within the company and combine advanced skills, real time situational awareness, and strategic mobility to deter, detect, and respond to threats before they escalate.

4.

FIREARM TRAINING CENTRE

Unlock elite firearm skills with Spartan Secure where precision, discipline, and tactical excellence shape every course. Whether you're a security professional, executive protection agent, or responsible civilian, Spartan Secure provides world class firearm training rooted in real world experience and uncompromising safety standards. All our trainers are ITA and PFTC approved, bringing invaluable on the ground experience from various police units. Our certified instructors don't just teach you to shoot, they prepare you to think, move, and act confidently under pressure. From basic handling to advanced tactical scenarios, Spartan Secure transforms your potential into proven readiness. Train with the best. Operate like the elite. Start your journey today with us.

We provide professional firearm training for individuals, security personnel, and law enforcement agencies at our training centre, approved by SAPS and PFTC. Our courses cover firearm safety, marksmanship, defensive shooting, tactical training, and legal regulations. We offer competencies in handguns, shotguns, rifles, as well as business competencies and Regulation 21 certification for security officers.

Advanced Tactical Firearm Training

We equip professionals with advanced tactical firearm skills essential for operating in high threat environments. This course emphasizes speed, precision, movement, and critical decision-making under pressure. Training includes advanced drills such as low light shooting, use of cover and concealment, close quarters engagement, and high stress decision making scenarios. It is specifically designed for individuals with existing firearm proficiency who are ready to elevate their capabilities to an elite operational level.

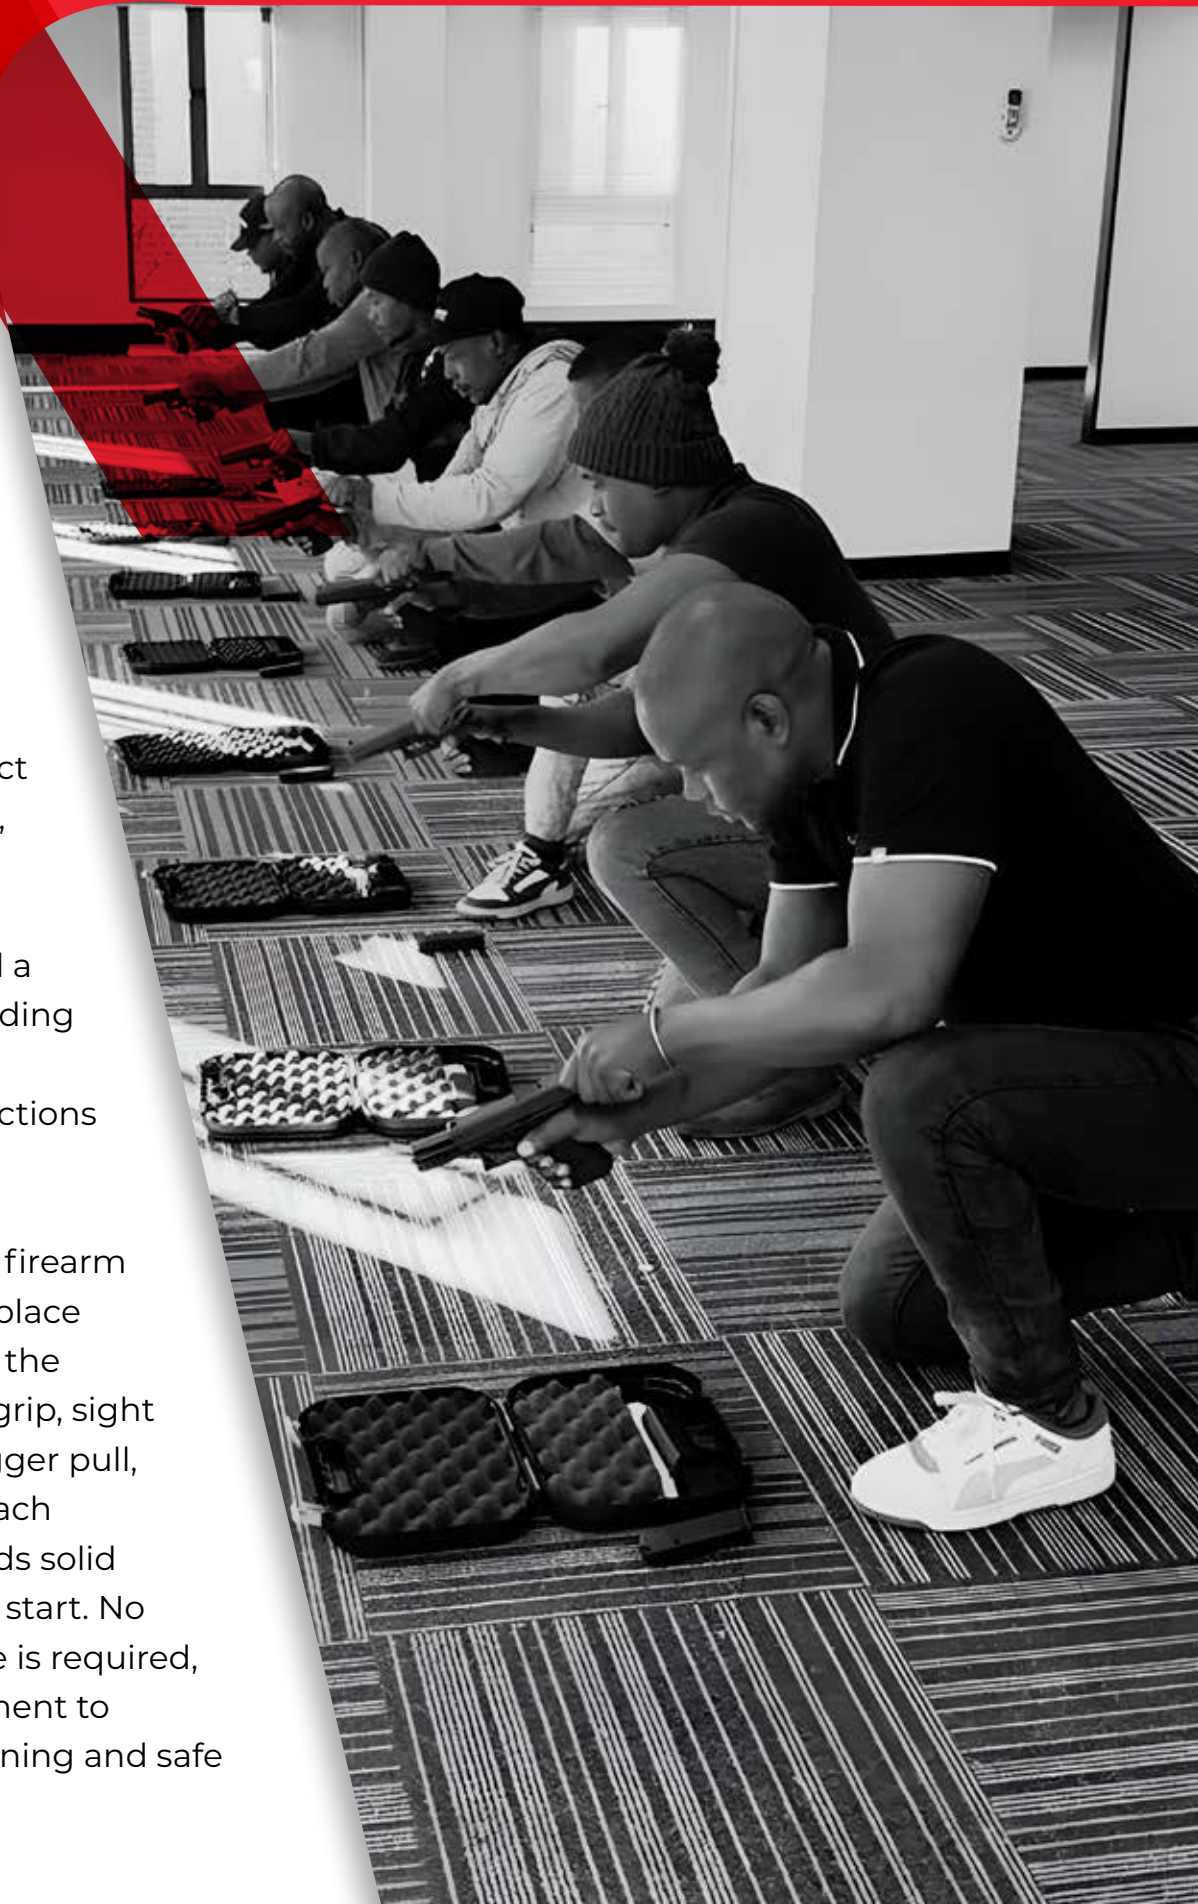

Civilian Firearm Training

Spartan's Civilian Firearm Training Program Our program is designed to empower individuals with little to moderate firearm experience. The course focuses on essential firearm safety, legal responsibilities, practical shooting skills, and real-world defensive strategies. We cover key topics such as handgun fundamentals, home defense planning, and the legal use of force ensuring that participants not only learn how to shoot, but also when and why. Whether you're a first-time gun owner or looking to enhance your proficiency, this training prepares you to act with confidence, responsibility, and control in any situation.

Basic Firearm Safety & Handling

Laying a strong and responsible foundation, this program is ideal for beginners and individuals looking to refresh their core skills. It emphasizes strict safety protocols, proper firearm handling techniques, and a clear understanding of both the mechanical functions and legal responsibilities associated with firearm ownership. We place strong focus on the correct stance, grip, sight picture, and trigger pull, ensuring that each participant builds solid habits from the start. No prior experience is required, only a commitment to responsible learning and safe practices.

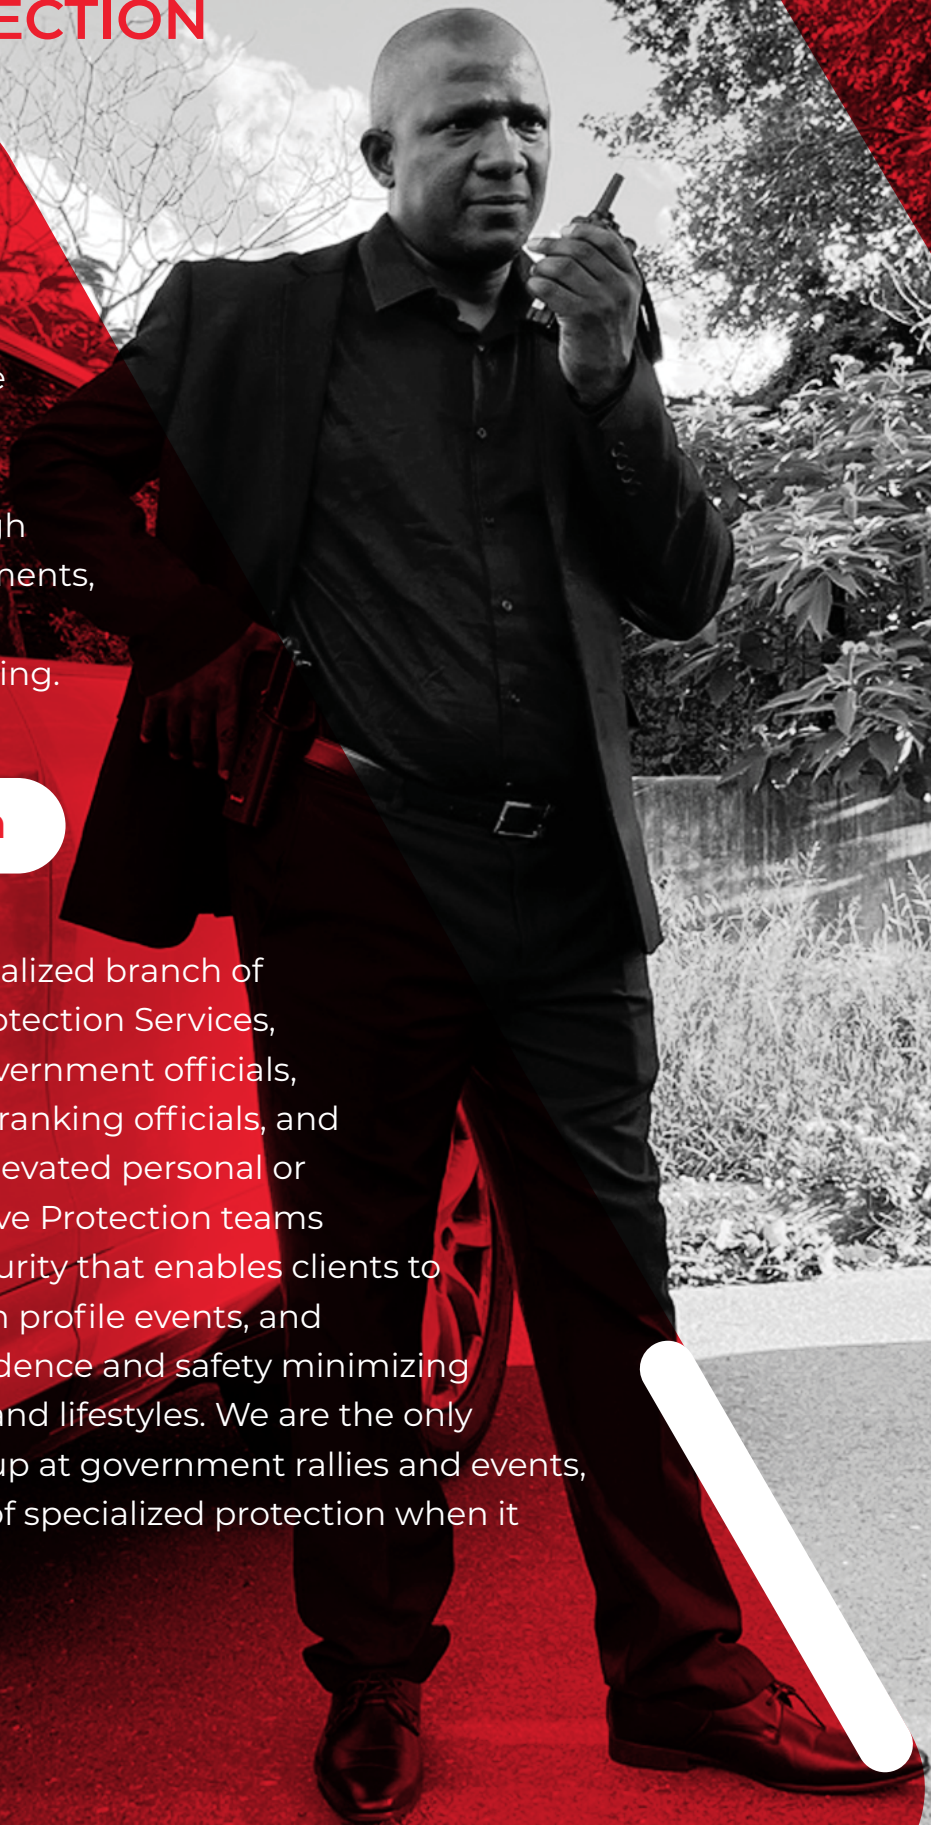

5. VIP PROTECTION

Our VIP Protection services cater to business executives, celebrities, politicians, and other high profile individuals who require discreet and reliable security. Our trained specialists ensure your safety and privacy through comprehensive threat assessments, secure transportation, and personalized protection planning.

Executive Protection
